ABOUT

As a Product Strategist with technical roots, I bridge the gap between vision and execution.

With a track record of launching features that improve business metrics, I've driven value for large, enterprise companies, as well as scrappy SAAS startups.

Passionate about - Women in Leadership, Lifestyle Design, Community Connection, Healthy Competition

SKILLS

Development - Postman, SQL, TypeScript, React, JavaScript, HTML, CSS, GraphQL, NodeJS

Prototyping - Figma, Adobe, Affinity

Data - Google Tag Manager, Google Analytics, Excel, Sheets

Agile - Jira, Azure DevOps

AI - Claude, ChatGPT, Cursor

EXPERIENCE

Senior UX Engineer

Feb 2024–Present

OPIS, A Dow Jones Company

Defined and implemented product requirements, while collaborating cross-functionally, using customer data.

Bridged the collaborative gap between designers and developers, while balancing stakeholder needs.

Automated engineering processes to optimize efforts and architected design system infrastructure to minimize tech debt.

Product Owner, UX Engineer

Mar 2023–Nov 2023

BambuMeta

Led team of product developers and managers in enterprise product re-haul to better meet user and stakeholder needs.

Conducted and analyzed qualitative research to keep a tight feedback loop between feature improvements and users.

Collaborated with stakeholders, C-suite leadership, and engineering leadership to create product roadmaps.

Design System Engineer

Mar 2022–Mar 2023

Paylocity

Developed enterprise-scale software using the Agile/SCRUM frameworks, providing value in ceremonies.

Expanded and maintained internal tooling and docs, using React, TypeScript, and design token strategy.

Educated developer customers on tooling usage and benefits of design systems to build adoption of internal tools.

UX Engineer

Aug 2020–Mar 2022

Allied Solutions

Analyzed quantitative data to drive improvement, using Google Tag Manager and Google Analytics.

Developed 10+ components for React-based Design System.
